

## All Children Thrive–California REQUEST FOR APPLICATIONS

### BACKGROUND

All Children Thrive–California (ACT) is a statewide, community-driven initiative fostering holistic solutions to longstanding problems facing California families. ACT unites community members and their city officials to co-design policy solutions that improve child well-being. The collaborative design model ensures that those most harmed by inequities receive the greatest support.

ACT is committed to supporting local policy projects designed to allocate resources in a way that assures that all children thrive. ACT prioritizes cities that are seeking to establish policies benefiting historically marginalized communities—the same ones that have been underserved and over surveilled – and names equity as central to the distribution of resources.

ACT accelerates change by building networks of California communities that transform the ecosystem shaping child well-being. ACT will bring together city officials and community leaders who understand their cities to co-design solutions through one of six focus areas:

- Strengthening economic supports for children and families
- Creating protective environments
- Promoting healthy child development
- Youth development and civic engagement
- Access to safe and stable housing
- Mental health and wellness

**PURPOSE OF RFA.** The purpose of this Request for Applications (RFA) is to support ACT Design Teams in the ACT Transformation Process.

**KEY DATES.** Applications are accepted on a rolling basis.

**FUNDING AVAILABILITY.** Twenty cities will receive \$20,000 to \$60,000 each to support eligible activities (\$10,000 to \$15,000 per activity) and allowable expenditures during their participation as an ACT city. (See Activities, Budget, and Use of Funds below.) Funding for additional activities may be requested throughout the project but may not exceed a total of \$60,000 per city. These funds are a one-time allocation to support ACT activities in 2020 and 2021. Applicants are to remain cognizant that the use of Mental Health Services Act funds and the activities proposed in response to this RFA must be consistent with the authority provided under SB 840. Funding is contingent upon available revenues and appropriation by the Legislature and the California Department of Public Health.

**ELIGIBILITY CRITERIA.** Applicants must be a 501(c)3, other non-governmental entity, or tribal sovereignties that is a current member of their city’s existing ACT Team. Before applying, an applicant must work with an ACT Coach and the ACT Core Team to develop a scope of work and learn about activity options. The table below provides full eligibility requirements to receive funding and means of meeting them.

## **GLOSSARY OF TERMS**

- **Community Action Area:** One of the following six Community Action Areas (i.e., policy strategies) chosen by a Design Team on which to focus to improve child wellbeing in their city:
  - Strengthening economic supports for children and families
  - Creating protective environments
  - Promoting healthy child development
  - Youth development and civic engagement
  - Access to safe and stable housing
  - Mental health and wellness
- **Community Systems Map:** A graphic illustration developed by a Design Team describing the partnerships, key players, key data and community trends, and desired impact of their ACT activities.
- **Transformation Process:** ACT city participation is divided into 3 stages: (A) engage, (B) grow, and (C) accelerate (see Funding Activities). See Figure 1: ACT Big Picture Map for more details on the Transformation Process.
- **ACT Coach:** Public Health Advocates and UCLA staff who are responsible for oversight and coordination of technical assistance activities in ACT cities.
- **ACT Core Team:** A team of at least two city staff/officials\*, a youth-serving community-based organization, an adult-serving community based-organization, and two resident leaders who together identify and assemble a Design Team.
- **Design Team:** A team of youth, community members, community partners, city officials and their staff\* who jointly identify and rally support for programs, policies, and/or other strategies to improve child well-being in their city by making meaningful progress in their chosen Community Action Area. The Design Team also educates their city council about the need for resolutions or local ordinances that provide a framework for and commitment toward child wellbeing.
- **Asset Mapping:** The process by which community members identify the level, status, and/or condition of behaviors, knowledge, and/or skills that individuals, groups, or institutions possess which serve as supports, resources, and/or other sources of strength to the community.
